

LIQUID FEED SYMPOSIUM

**Henry B. Gonzalez Convention Center
San Antonio, Texas
September 14-16, 2010**

Who should exhibit?

The Liquid Feed Symposium is the only educational program, networking forum and related industry exposition of its kind. This annual two and a half day event sponsored by the American Feed Industry Association is specifically geared to address the needs of manufacturers of liquid supplements, ingredient suppliers to the manufacturing of liquid supplements and any other equipment manufacturer or supporting company in this unique and growing industry. Decision makers throughout the liquid feed industry will be at this event. Only 30 booths are available on a first-come-first-served basis.

Who should attend the Liquid Feed Symposium?

If you manufacture liquid supplements, market or supply ingredients to manufacturers or provide other support to the manufacturing, marketing or delivery of liquid supplements, you will find the 2010 Liquid Feed Symposium program covers "hot topic" issues that affect your everyday business. The symposium general session will adjoin the show hall. Come and learn while giving your company an "address" at this year's symposium trade show. Attend the symposium to gain the latest information on industry trends, potential regulatory issues, the latest research, marketing techniques and other industry- relevant topics. Exhibitors receive one registration with each booth rental. Additional exhibiting company registrations are offered at a significant discount. **All attendees and exhibitors MUST be registered for the symposium. There are no special-day or exhibit-only passes.**

What is provided with your exhibit booth rental?

Each 8' X 10' booth rental includes an 8' back drape, 3' side divider drapes, one 6' x 30" draped table, two chairs, a waste basket, a 7" x 44" identification sign and a fully paid registration. Your company name will be listed on the show hall entry sign and AFIA on-site printed material. **Companies exhibiting at the 2010 Liquid Feed Symposium will be featured on a virtual trade show through August 2011, including product information and links to your company Web site.**

Freeman Company is the symposium's official exhibit service company.

Events in the show hall create additional exposure for exhibitors

Exhibitors enjoy plenty of exposure and opportunities to network with industry leaders at several functions held in the exhibit hall.

- **Two evening receptions with bars**
- **Two breakfasts**
- **Ice Cream Social**
- **All breaks**
